## CELL PHONE & MEDIA MOUNT

### INSTALLATION INSTRUCTIONS

PART#: 75134-506

MFG: SUBARU

MODELS & YEARS:

(B9) Tribeca 2006-2014

## \*\* ADVISEMENT \*\*

Read instructions completely prior to starting installation. All InDash Mounts are designed so that after installation, phone is facing normal driver position for left-hand drive vehicles. This mount is not designed to be used in foreign countries with right-hand drive vehicles. Use extreme care when working around the plastic components on the dash. Excess force, can cause breakage of the plastic components.

STEP #1 With hook tool assist, remove the right side dash trim strip. There are (4) clips holding it in place. Start to release trim strip from the passengers door side. Lift out on the strip to release (1) clip at a time. Set strip aside.

STEP #2 Use Phillips screwdriver to remove the (1) screw to the right of the air vent. Place the A Part over the screw hole and install factory screw. Install supplied (A) screw into the other hole in the mount.

STEP #3: Use file to remove the tab on the lager side of the trim strip that sits up against the air vent. NOTE: It may be necessary to remove more material from the edge of the strip to allow the trim strip to fit as flush as possible to the air vent and InDash by PanaVise Mount, and to assure the trim strip fits back in place completely.

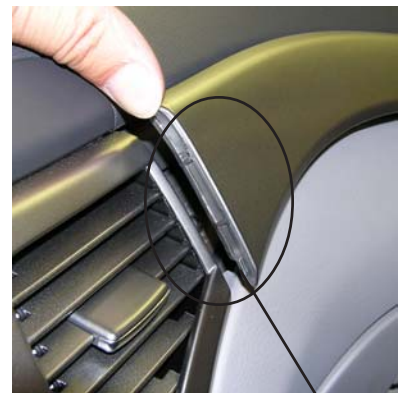

STEP #4: Install the (B) Part with the part number on it onto the (A) Part. With the 5/16" wrench, install the (2) Acorn nuts onto the mount.

INSTALLATION IS NOW COMPLETE.

ENJOY YOUR NEW INDASH by PANAVISE MOUNT.

Prototype of Part A mounted in place

Location to file smooth

Note minimal gap by mount
